

Vi oppfordrer alle deltakere på Cutting edge kulturskole!-konferansen 27.-28. okt å sende inn artikkel til JASEd!

Journal for Research in Arts and Sports Education CALL FOR ARTICLES

□ **Deadline for submissions:** yearly 01.10 and 01.04

Information: chief editor [anna.l.ostern\(at\)plu.ntnu.no](mailto:anna.l.ostern@plu.ntnu.no)

Journal for Research in Arts and Sports Education (JASEd) is a new □ open access publication channel for peer-reviewed research articles, and other articles □ on the fields of arts and sports education. We welcome research articles written in Norwegian, Swedish, Danish or English. □

Journal for Research in Arts and Sports Education publishes single articles connected to two yearly deadlines, and occasionally special numbers with own deadlines initiated by the editorial board.

Aims and scopes – will soon be published and linked to www.kulturskoleradet.no

Guidelines and publication fee - will soon be published and linked to www.kulturskoleradet.no

With research articles in Journal for Research in Arts and Sports Education we aim at:

- Presenting new research-based knowledge in and on arts and sports education (including physical education).
- Stimulating articulated knowledge and discussion about quality in and around arts and sports education (including physical education).
- Contributing to stimulating dialogues in the various field of arts and sports education (including physical education) in school and society.
- Developing reflections in and on arts and sports education (including physical education) that are practice-based as well as philosophical and theoretically based
- Stimulating generation of new theory in and on the fields of arts and sports education (including physical education), generated also by arts and sports educators in diverse contexts.
- Contributing to concept building and an academic writing tradition that conveys discussions on arts and sports education (including physical education) topics among the diverse arts and sports education contexts in school and society.
- Stimulate to network building nationally and internationally.
- Highlight specific themes connected to arts and sports education research as suggested by the editorial board. □
